The unfinished Cathedral by Gaudi, the expiatory church of La Sagrada Família, is a work on a grand scale that began on March 19, 1882, from a project by the diocesan architect, Francisco de Paula del Villar (1828-1901). At the end of 1883, Gaudí was commissioned to continue the work, a task which he did not abandon until his death in 1926. Since then, different architects have continued the work after his original idea.
