Building work for this grand structure originally began in 1506 and is the burial site of its namesake Saint Peter, one of the 12 apostles of Jesus. One of the key architects of the Basilica was Michelangelo and some of his original drawings for a section of the Dome were found as recently as 2007.

SIGHTSEEING IN FLORENCE 2024

Recommend excursion(s) to pre-book:

- Tower of Pisa - **Fee**
- Uffizi Gallery - **Fee**

1) **Tower of Pisa**

Prices: Leaning Tower \$38.00 - Cathedral admission free

The Leaning Tower of Pisa is the campanile, or freestanding bell tower, of the cathedral of the Italian city of Pisa, known worldwide for its unintended tilt to one side. It is situated behind the Cathedral and is the third oldest structure in Pisa's Cathedral Square after the Cathedral and the Baptistry. The tower's tilt began during construction, caused by an inadequate foundation on ground too soft on one side to properly support the structure's weight. The tilt increased in the decades before the structure was completed, and gradually increased until the structure was stabilized (and the tilt partially corrected) by efforts in the late 20th and early 21st centuries.

2) **Uffizi Gallery**

Prices: Adults: \$27.00 per person.

The Uffizi Gallery is an art museum located in Florence, and among the oldest and most famous art museums of Europe. In high season (particularly in July), waiting times can be up to five hours. Visitors who reserve a ticket in advance have a substantially shorter wait. Tickets can also be purchased from a lesser-used ticket window at the Orsanmichele that serves multiple museums.

Optional:

3) **The Ponte Vecchio**

Prices: Free of charge.

The Ponte Vecchio ("Old Bridge") is a Medieval stone closed-spandrel segmental arch bridge over the Arno River, in Florence, Italy, noted for still having shops built along it, as was once common. Butchers initially occupied the shops, but the present tenants are jewelers, art dealers and souvenir sellers. The Ponte Vecchio's two neighbouring bridges are the Ponte Santa Trinita and the Ponte alle Grazie.

4) **Siena - Piazza del Campo in Siena**

Prices: Free of charge.

Piazza del Campo in Siena is considered one of the most beautiful places in the world. It has a characteristic shell-shape divided in 9 slices; you can admire this form from the top of the tower del Mangia. The Torre del Mangia in Siena requires an admission fee of \$14.00 - U11s Free.

Prices and availability for these excursions may change a little at the time of booking.

Touristic information Venice

Sightseeing entrance fees for 2024 to be confirmed.

Venice is the capital of the Veneto region in Italy. It is situated across a group of 117 small islands that are separated by canals and linked by bridges. These are located in the shallow Venetian Lagoon, an enclosed bay that lies between the mouths of the Po and the Piave Rivers. Parts of Venice are renowned for the beauty of their settings, their architecture, and artwork. The lagoon and a part of the city are listed as a World Heritage Site.

Basilica di San Marco (Saint Mark's Church): This elaborate church sits on the popular piazza by the same name. The church was built in honor of Saint Mark the evangelist, whose remains were stolen from their home in Alexandria, Egypt, and hidden in barrels of pork by a couple crafty Venetians, intent on bringing him to rest in Venice.

Piazza San Marco (St. Mark's Square): St. Mark's Square, or Piazza San Marco, is considered by many to be the heart of Venice. As the largest square in Venice, St. Mark's Square is the only "piazza" in the city. All other squares are campis or campielli. Lining the square are multiple historical sites including St. Mark's Basilica, St. Mark's Campanile and Doge's Palace, as well as a number of restaurants, making it the perfect spot for leisurely people-watching and wine sipping. Along with intricate architecture and hearty plates of spaghetti carbonara, visitors will also be met with throngs of tourists, pigeons and vendors selling souvenirs. If you hoped to pick up a gondola hat or a carnival mask during your trip, this is the place you will find them.

Rialto Bridge (Ponte di Rialto): Several centuries ago, if you wanted to cross the Grand Canal, the Rialto Bridge was the only way. Now there are other options, including the Accademia Bridge. The bridge's current incarnation is the handiwork of Antonio da Ponte, whose name translates to "Anthony of the Bridge," is built entirely of marble after collapsing multiple times from previous wooden designs. Predicted to fail by critics, the bridge still stands and is considered an engineering marvel.

Grand Canal: Considered to be the main street of Venice, the 2-mile-long Grand Canal is one of the city's most popular and highly photographed attractions. Recent travelers recommend hiring a gondolier for a romantic (but expensive) row along the canal.

Doge's Palace (Palazzo Ducale): Views from the Venetian Lagoon give the Doge's Palace an ethereal look — almost like it's floating on top of water. But it's fitting, as the Doge's Palace (or Palazzo Ducale) has witnessed an intriguing history in its role as the residence of the doge (leader), the seat of government and the palace of justice. Everything from execution orders to the affairs of Venetian leaders was carried out here; and a web of secret passageways and hidden doors reveals a decidedly mysterious past.
